COMPANY PROFILE

“PROVIDING WORLD CLASS TALENT LOCALLY”

Hayakel Company Was Founded To Serve The Middle East Market With World Class Construction. Architecture And Engineering Services. The Senior Management Brings Over 18 Years Of Experience From The Construction Industries. Hayakel Company Construction Brings Unparalleled, Integrated Construction Expertise To The Market. The Company's Success Thrives On Providing First-class Professional Services Within A Defined Schedule And Budget.

VISION :

Our vision is to ensure the company's continued growth and rating as the Leading construction services solution provider in the Kingdom of Saudi Arabia.

MISSION :

Our mission is to ensure best practice and operational excellence in the delivery of construction solutions that meet our customers specific needs.

SHARED VALUES :

Integrity, Professionalism, Competence, Respect and Tolerance and Commitment to Excellence.

PRODUCTS & SERVICES

WORKS OF IRON TYPES

- Manufacture All Types Of Metal Buildings
- Frames And Molds Of Concrete Columns And Retaining Walls
- Grating For All Kinds Of (Iron, Galvanized, And Stainless Steel)
- All Types Of Buildings Aluminum (Composite Cladding, Curtain Wall, Aluminum Structural, Glass, Doors & Windows.
- Louvers Of All Kinds
- Stands Of All Kinds Of Show Rooms
- Stairs And Drawers With Hand Rails
- Range Of Waste Systems For The Towers Garbage Chute System And The Range Of Laundry Linen Chute System
- Car Parking Shades
- Metal Roofs And Sky Light Domes
- Crown Column Capitals And Minarets Of Mosques Crescents
- Welding High-pressure Pipes And Flanges Pump

CONSTRUCTION WORK

- Fixing All Types Of Concrete Formwork
- General Construction
- All Type Of External And Internal Finishes
- Build Power Station Plants With Manholes And Hoods Works Of Sanitation
- Preparation Of Foundations, Ground Beams, Columns & Slabs
- Under Ground Water Tanks
- All Type of Concrete Work

WHY HAYAKEL ?

Managing Principles Have Extensive Hands-on Construction Management, Design & Technical Experience. We Know Buildings 'Inside Out'! Extensive International Experience That Brings Fine Quality To All Projects Professional And High Ethics Services That Is Guaranteed To Keep Each Of Our Client Pleased A Complete Turn Key Solution For Each Project Provides The Client With A Single Source Of Services With Flawless Integration Attention To Details And Thou Rough Knowledge Of Building Materials.

HAYAKEL TECHNICAL OFFICE

DISCIPLINES PROVIDED :

Analyze building codes, by-laws, space and site requirements and other technical documents and reports to determine their effect on architectural and civil designs. Coordinate structural electrical, and mechanical designs, and determine a method of presentation to graphically represent building plans.

- 1 - **Design Coordination** : Coordinate all design development and approval processes to ensure they align with project requirements and standards.
- 2 - **Schedule Adherence** : Monitor and enforce adherence to the agreed-upon schedule for design development and shop drawings, ensuring timely progress.
- 3 - **Drawing Management** : Establish and implement a comprehensive drawing management system to organize and track design-related documents.
- 4 - **Technical Queries** : Prepare and manage technical queries, addressing them with the client and consultants to ensure clarity & resolution
- 5 - **Method Statements** : Assist in the preparation of method statements and procedures related to construction, both structural and architectural, offering technical insights and features for work aspects.
- 6 - **Drawing Approval** : Coordinate the approval of drawings and take responsibility for distributing approved drawings for construction to relevant site personnel.
- 7 - **Quality and Safety** : Collaborate with site engineers to ensure that all work execution meets the required quality and safety standards, Resolve technical issues across all trades promptly.
